Enormous and Growing Reserve in New York Bank Vaults.

Some Notable Changes on the Week in the Share List-Indianapolis Grain Unchanged.

At New York, yesterday, money on call

was easy at 1 per cent. Prime mercantile paper, 31/2651/2. Sterling exchange was steady with actual business in bankers' bills at \$4.86% @4.87 for demand and at \$4.84%, @4.85 for sixty days; posted rates, \$4.86@4.88; commercial bills,

\$4.834,@4.84. Silver certificates, 67%c bid. Bar silver closed at 661/2c per ounce; at London, 30%d. The New York weekly bank statement

shows the following changes: Reserve, increase......\$6,288,550 Loans, decrease...... 914,300 Specie, increase...... 3,265,700

The banks now hold \$109,042,250 in excess of the requirements of the 25 per cent, rule, Total sales of stocks Saturday were only 43,500 shares. There was hardly sufficient business done on the Stock Exchange Saturday to constitute a market, outside of New England, Western Union, Sugar, St. Paul and Louisville & Nashville, and of these the first-named alone fluctuated outside of a limit of % per cent. At the opening the prevailing tone was firmness, and there was little or no buying, and a slight reaction ensued, the market going down of its own weight, rather than by reason of any pressure to sell. It was not until the last half hour that the traders began selling New England, which for lack of support from any quarter broke 2% per cent., closing at the lowest figures touched. The drive at this stock induced, by the receipts of selling orders from Boston, the bears to make a demonstration in the hope of catching stop orders, but without much success. The general list was not materially affected by the break in New England and closed fairly firm. London houses bought moderately of St. Paul and Louisville & Nashville in the early dealings, and there was a covering movement in Sugar. Little or nothing was done in the grangers outside of St. Paul. Distilling and General Elec-tric were entirely neglected. The liquida-ting sales made Friday in Western Union were not renewed, and there were evidences that an effort was being made to buy back the shares without raising the price materially. Compared with the final sales of Friday, the changes at the close were as a rule frac-tional. On the transactions of the week the most notable changes were advances of 15 per cent. in Rensselaer & Saratoga, 5 per cent. in P., C., C. & St. L. preferred; 4, in Buffalo, Rochester & Pittsburg; 3, in St. Paul, Minneapolis & Manitoba, Evansville & Terre Haute and United States Express; 2%, in Pacific Mail; 11%, in New York, Chicago & St. Louis, and 31/2 in New York, Chicago & St. Louis first preferred, and de-clines of 3% in Consolidated Gas and Rubber preferred; 2%, Rubber common; 31/2, Cordage preferred; 1%, Cordage common; 3,

Wells-Fargo; 34, Sugar; 3, Sugar preferred, and 24, Lead preferred. The railway and miscellaneous bond market was firm throughout and fairly active. Northern Pacific threes, Ohio & Mississippi seconds and Peoria, Decatur & Evansville firsts advancing 2 per cent. Union Pacific sixes collateral trust notes declined 41/2; Peoria, Decatur & Evansville seconds and Brooklyn Elevated firsts, 3; Northern Pa-cific firsts, 2; Northern Pacific seconds, 4; Northern Pacific thirds, 2½ per cent. The only securities which recorded a decline of over 3 per cent. are Seattle, Lake Shore & Eastern firsts, 14%; Louisville & Nashville sixes, 8, and Central Pacific land grants,

Government bonds were strong. State bonds were inactive. The following table, prepared by James E. Berry, Room 16, Board of Trade, shows the range of quotations: Open- High- Low- Closing. est. est. ing.

LOCAL GRAIN AND PRODUCE. Trade of the Week Fairly Satisfac-

tory with Easy Prices in Most Lines. The trade of the week closing yesterday was an improvement over the preceding weeks of the month, but not up to the volume of the corresponding week in 1893. The traveling salesmen who came in Friday night and yesterday report matters brightening somewhat, and the retail merchants are carrying so low stocks of goods that of necessity they must replenish them more or less. But they purchase largely on the hand-to-mouth policy. In prices changes during the week were few, and, in most cases, to lower figures. Poultry and butter are both weak and in light demand. Eggs are coming in freely, but with an increased demand. In the vegetable line an easy tone to prices is noticeable. Oranges and lemons are in good supply and steady. The drygoods houses had a fair week's business, but to sell large bills goods were offered on very small margins. The grocers seemingly have the lead, and some of them claim to be doing more business than in January.

The Indianapolis Commission Co and prices easier. Hog products are meying well, and prices for some days have It has been an off week in the local grain market, with attendance on 'Change small and little life in the bidding. Table Talk.

Harper's Bazar. Our manners at the table are quite as important as the food provided for our guests. A lady, the word being used advisedly, is known by her gentle bearing and her consideration of the feelings of others. She is always a good listener, and never bores her neighbors with long tales of her own domestic troubles and vexations. It is clearly the duty of a guest to make herself as agreeable as she can when she is dining with friends. If she lapses into silence, and gives up to the mood of the moment, she is likely to become very stupid. One should be at one's best, and try to draw out the best in one's neighbors. Sometimes it is a very hard matter to make conversation; but there is no individual in the world who cannot talk on some subject, and by a little effort one may be abla to hit that subject. Men, as a rule, like to be listened to, and a clever woman can easily draw a man out, so that he thanks his hostess in his heart for a most delightful evening. There isn't a man in the world who would get the slightest atom of amusement or pleasure from hearing Mrs. Atell of how Charlie had the whooping cough, and what a dreadful time she was having with her cook. He would neither be amused, nor would he try to conceal his boredom. On the other hand, a woman smilingly and sympathetically listens to her neighbor, who talks for an hour about horses, of which she knows nothing. Ho however, is sublimely unconscious that she is not more interested in horseflesh than Bar iron, 1.70@1.80c; horseshoe bar, 2%@ in anything else in the world. And so we 3c; nail rod, 6c; plow slabs, 3c; American women would do well to post ourselves in cast steel, 9c; tire steel, 2% @3c; spring steel, these various subjects, which men are prone to discuss, so that at least we may know what they are talking about, and be able to respond with some degree of intelligence 13@16c; Elgin, 26c; if we wish to make ourselves agreeble in creamery, 18@22c.

WHEAT HELD STEADY

In the Face of Considerable Pounding the Price Rose 1-8c.

Corn Was Weak All Day and Made a Small Decline. While Provisions Closed Firm and Higher.

CHICAGO, Jan. 27.-Wheat slowed up against a good deal of pounding in the pit and a vast amount of tongue hammering on the outside, to-day, and was till in good shape at 1/3c advance when time was called at the close. Corn acted weak and lost about 3-16c per bushel of its former value. Provisions averaged firmer and closed at slightly better prices.

There was no indication that anything would occur to lift the wheat market out of the rut of the last two weeks. The routine news of the session was mostly bullish. The receipts at most points were light, the exports better than expected, the weather and crop news was favorable to buyers. Offsetting this was the whipped condition of the bulls, the doubt about the increase in stocks and the adverse prospects in France. The public cable was 1/2d lower for Liverpool, partly owing no doubt to the French resolution asking the sudden increase in the duty on grain. The decrease of 472,000 bushels in and affoat for Europe was disappointing. The increase in Australian stocks was nearly 2,000,000 bushels. Chicago stocks of wheat will increase again considerably. On the other hand, local receipts were but fifty-four cars; Northwestern receipts, 149 cars against 314 cars a year ago. Reports covering Indiana, Illinois, Missouri, Kansas and Nebraska say that high winds have caused bare fields and damage to wheat likely to follow. This was confirmed by re-ports to the Modern Miller, St. Louis. The dispatches indicated that fifty boatloads of wheat worked for export at all points yesterday. But there was no enthusiasm and only a narrow market. The May price started at 63% 663%c, with an upturn to 63%c for a moment, a dip to 63% 663%c, and then little change for an hour following. The wheat trade got no help from any quarter late in the session and closed at the low point, 63%, or %c over last night. tirely wipe out the advance of Wednesday

There was enough reaction in corn to enand Thursday, the early sales 38%c, and off to 38c, with no rally better than 38%c up to the last half hour. The receipts were on the increase again and up to the estimates at 152 cars. The cut rates naturally acted against the market. This was especially the receipts was especially the receipt when the retirement of the receipt was the receipt with the retirement of the receipt was the retirement of the receipt was an acted against the market. This was especially the receipt was the retirement of the receipt was the retirement of the receipt was the receipt and the receipt was the receipt and the receipt was the receipt and the receipt was the r cially true when the estimate for Monday was raised to 310 cars. On this the break to 38c occurred. January was quoted at 34%c, July 38%c, and the feeling was quite Dispatches reporting only fifteen and twenty cars a day loading on several hundred miles of road in Iowa, where the aver-

age loadings are fifty to seventy-five cars a day, had little influence with the trade, in view of the big estimate for Monday.

The trade in oats was unsettled, prices being slightly higher for a time, but afterwards easing off. The close was steady the same as yesterday for May. In the pork market the offerings were somewhat free, and prices started at 24c decline from yesterday's closing, followed by a further drop of 5c without any support. Two or three orders then came in, when the market reacted to the opening price. Some strength was subsequently developed on the packers buying with a brief spell of activity, prices advancing 7½c, but ultimately declining to that extent, one of those who had bought offering the market down, followed by an improvement of 21/2c. At the close the figures were the same as those at the same time yesterday. Lard was featureless and the market closed steady at 7.60c for

May, an advance of .021/2c over the close of yesterday. Ribs, on very light buying, advanced .071/2c for the day, May closing Estimated receipts for Monday are: Wheat, 75 cars; corn, 310; oats, 80; hogs, 33,000 head. Leading futures ranged as follows: Open- High- Low- Clos-

TRADE IN GENERAL.

Quotations at St. Louis, Philadelphia,

Baltimore and Other Points. MINNEAPOLIS. Minn., Jan. 27.—Receipts were 107 cars; shipments, 30 cars. It is supposed that mills ground rather more flour this week than they did last, and they ground more last week than the week preceding it. A little better feeling is noticed in the flour market and in some instances export orders from the United Kingdom have been at a higher price. One large milling concern here reported to-day that they were bid 6d over anything they had got lately for a large amount of patents. While they admitted the profits in advance of order would be very small, they still insisted that it could be filled without loss at the present price of track grain here. Other millers were inclined to dispute the reliability of this claim, but the firm reporting the bid gave the figures, and in bringing the price down to a fine point, it would appear that the bid was correct. The flour could be made without loss and ship it at that price. All the week the flour manufactured and sold was distributed mainly to points west of New York and Pennsylvania, although a little was sent to West Virginia. The arrivals of wheat were light, but there was a small increase in public stocks. Millers ground partly from supplies they had in their

Wheat opened this morning at 60%c, July at 60%c. Track wheat continued to sell at the usual premium of %@lc above the May price. Shipments of flour to-day were 20,165 barrels, and the output was estimated at 18,200 barrels.
